

# New Recycle Option for the City of Fate

IESI will soon offer 96-gallon recycle carts to the residents of Fate. The carts will hold mixed recyclables including cardboard, glass, plastics numbered 1-5 and 7, paper, aluminum, steel and tin.

The cost will be one dollar per month for the larger container. Interested residents will receive the new cart and have the 18-gallon recycle bins collected by IESI. IESI is asking interested residents to sign up for this service that will be rolled out December 15-16.

Please give the City of Fate your name, address and signature to confirm your order of (1) recycle cart. The additional \$1 per month will be billed to your residential garbage bill.
